(L) - a low rate is desirable, (H) - a high rate is desirable, (N) - desirable rate is unspecified

% - per 100, * - per 1,000 line days, ^ - per 10,000 OBDs, ~ - per 1,000 hospital admissions

- Please note: data for this indicator were NOT collected in accordance with the CI User Manuals

The information in this report is to provide assistance to organisations in continuous quality improvement. Responsibility for the accuracy of submitted data lies with the contributing organisation. The ACHS makes every effort to validate the information it receives prior to analysing and publishing results.

Lines in italic/greyed highlight results that require attention. These results demonstrate where an organisation is statistically significantly 'different' to all other organisations submitting data for that particular indicator and where the results are undesirably lower or higher than the expected rate.

Lines in bold highlight results where the aggregate rate is outside the 99% confidence interval. This indicates the organisation is statistically significantly 'different' to all other organisations submitting data for that particular indicator.
